<b>Steps to reproduce:</b>		<b>Release Notes Langtext:</b>	Shopgate Update (v2.9.41)
<b>Betroffene Versionen:</b>	3.2.2.0		

### Description

Merge Request: [https://sources.gambio-server.net/gambio/gxdev/merge\\_requests/449](https://sources.gambio-server.net/gambio/gxdev/merge_requests/449)

#### Plugin Changelog Version 2.9.41:

- fixed issue with calculating customer group discounts

#### Plugin Changelog Version 2.9.40:

- uses Shopgate Library 2.9.58
- fixed shipping taxes in order import

#### Library Changelog Version 2.9.58

- fixed 'undefined index' notice in ShopgateBuilder
- fixed turning on error\_reporting for all errors by default

#### Library Changelog Version 2.9.57

- fixed missing plugin\_version in JSON response

#### Library Changelog Version 2.9.56

- fixed class names for logging classes to avoid duplicate declarations
- removed self-logging functionality from ShopgateLibraryException
- added proper stack trace generation
- added proper handlers for errors and exceptions
- added a new shutdown function to be able to log fatal errors that cause a script to stop unexpectedly
- moved initialization of error reporting settings and handlers from ShopgatePluginApi to ShopgateBuilder
- ShopgatePluginApi is now working with the "logging strategy" introduced in 2.9.55 if it was set
- ShopgatePluginApi is now using the stack trace generation mentioned above if it was set
- ShopgatePluginApi won't log stack traces anymore when using ShopgateLogger to avoid logging sensitive information
- deprecated ShopgateLogger
- added ShopgateClient to ShopgateCartBase to distinguish between the mobile clients
- added error code to remove items silently in the cart validation \* replaced "document.write" with asynchronous loading of mobile redirect / mobile header
- added Content-Length header to Response objects for CSV, XML and JSON responses

#### Library Changelog Version 2.9.55

- refactored ShopgateLogger to be able to pass a strategy for logging

#### Library Changelog Version 2.9.54

- adjusting CartCustomer object properties to contain an empty group array

#### Library Changelog Version 2.9.53

- added missing entries to composer.json
- fix for category asArray method when image is missing

#### Library Changelog Version 2.9.52

- extended method clear\_cache so plugin related cache files can be deleted as well

#### Library Changelog Version 2.9.51

- http/js redirect split via new forwarder class
