<b>Category:</b>	Installer		
<b>Target version:</b>	4.3.2.0 beta1		
<b>Steps to reproduce:</b>		<b>Release Notes Langtext:</b>	Vor der Installation des Shops leitet der Aufruf einer "Gambio Admin"-Seite nun korrekt zum Installer weiter
<b>Betroffene Versionen:</b>	4.3.1.0 RC1		
<b>Description</b>			
Instead of redirecting from admin/ANY_PAGE to gambio_installer, the browser redirects to admin/gambio_installer/gambio_installer/gambio_installer/gambio_installer/gambio_installer/gambio_installer...			
For testers: Run the command "php toolbox/bin/create-configure-files" or "yarn build:dev" to create new configure.php files. You have to delete the old files first!
