Typo in CSS-class in themes/Honeygrid/html/system/product_listing_filter.html | Tippfehler in CSS-Klasse in themes/Honeygrid/html/system/product_listing_filter.html

06/24/2021 12:49 PM - Moritz Bunjes

Status: Erledigt	% Done: 0%
Priority: Normal	Estimated time: 0.00 hour
Assignee: Mirko Janssen	
Category: Frontend	
Target version: 4.5.1.0 beta1	
Steps to reproduce:	Release Notes Langtext: Korrektur bei der Benennung einer CSS-Klasse in der Datei themes/Honeygrid/html/system/product_listing_filter.html
Betroffene Versionen: 4.4.0.2	
Description cols-xs-12 has to be col-xs-12. The naming is wrong for two div blocks (pagination) in the file themes/Honeygrid/html/system/product_listing_filter.html file. The wrong class has no visible effect, because the div block uses the complete width in the xs-breakpoint nevertheless.
